- Gina Petraglia, PT, DPT, COS-C, CEEAA, Board of Physical Therapy
- Joseph Sindone, DPM, Board of Podiatric Medicine
- Catherine Drew, PhD, Board of Psychology

Call to Order and Introductions (estimated 20 minutes):

Moderator: Lucy C. Gee, MS, Director, Department of Health, Division of Medical Quality Assurance

Objectives: To increase awareness about the current status of the opioid crisis.

To increase knowledge about alternative therapies in addressing the opioid crisis.

To increase knowledge about data and information resources regarding the opioid crisis.

To identify strategies (collaborative and individual) for review, discussion, and implementation by individual regulatory boards on how to address the opioid crisis.

To act as a “springboard” for future discussion regarding how to combat the opioid crisis from a multidisciplinary perspective.

Outcome: A reduction in opioid deaths in Florida as a result of strategies implemented by multidisciplinary health care boards.
