Tab 34 Proposed Ratification Changes

Board staff proposed a new format and method to the current quarterly Ratification List. Currently, staff manually develops an Excel spreadsheet containing all applications approved in the prior quarter. This is done by compiling 24 weekly spreadsheets from four team members.

To improve efficiency, staff requested the Board approve the use of a current database report that generates all licenses issued within the specified timeframe. The difference is the proposed report will be one report, opposed to four, that combines all licensees: PT, PTA, Exam, Endorsement, CAPTE trained, and foreign trained. This list will only contain licenses issued, opposed to applications that were approved.

MOTION: After discussion, Dr. Quillen made a motion to approve the proposed ratification changes. The motion was seconded by Mr. Lohr and carried 5/0.

OLD BUSINESS

Tab 35 Therapy Exam Prep, Request for Reconsideration

MOTION: Mr. Lohr made a motion to reconsider the request for remedial course approval. The motion was seconded by Dr. Tasso and carried 5/0.

An applicant had requested the Board to approve a 3 month webinar program, Therapy Exam Prep (TEP), for remedial purposes at the September 2012 conference call. After review and discussion, the Board voted to deny the course as the provider does not require full participation from the applicant and the course does not focus on the content of the NPTE, but test taking skills in general.

Board staff was contacted by the provider for TEP, Miye Fonseca, who requested reconsideration of the course for approval.

Ms. Fonseca was present to give an overview of TEP.

After discussion, the consensus of the Board is that TEP is not an academic review but an exam prep course. The preparer of the course also lacks an educational/teaching background.

MOTION: After discussion, Mr. Lohr made a motion to deny Therapy Exam Prep as an acceptable remedial course for applicants who have failed the NPTE three (3) times. TEP is not an academic course and does not include proper diagnostics. The motion was seconded by Dr. Tasso and carried 5/0.

MOTION: Mr. Lohr withdrew the motion to reconsider the request for remedial course approval. The motion was seconded by Dr. Quillen and carried 5/0.
